

Harbor Team

The Harbor Team was created in 2003 to advise Maryland Port Administration (MPA) on placement options for the Baltimore Harbor as part of the state's Dredged Material Management Program. Members represent a broad spectrum of community, business, local government and environmental interests from around the harbor. The committee completed its report to MPA in late 2003. The team was recently fully reactivated to assist with the identification of alternate placement options. It is staffed by MPA and consultants.

To contact committee members, send an e-mail to mpasafepassage@marylandports.com or call the Maryland Port Administration at 410-385-4438.
